Streaming Services & Internet Radio

Enjoy listening to whatever music you like with streaming services such as Spotify, TIDAL, and Deezer. The unit is also preset with TuneIn for enjoying internet radio. With over 100,000 radio stations, you can listen to free broadcasts of music, sports, news and talk shows from around the world.

* Service availability depends on region

Versatile Connectivity

The SX-N30AE is equipped with the phono MM input for a vinyl record player, as well as optical and coaxial digital inputs for connecting other audio sources.

Multi-room Audio Offers a Variety of Ways to Enjoy Music

FlareConnect™ shares audio from network and external audio input sources between compatible components. Enjoy effortless multi-room playback of LP records, CDs, network music services, and more with supported components and speaker systems. Music selection, speaker grouping, and playback management across the home are built into the Pioneer Remote App**.

* Sharing audio from external inputs is enabled with a future firmware update. External audio inputs supporting FlareConnect may differ depending on model. Please consult individual product specification for more information.

** Download free from the App Store or Google Play.

Chromecast built-in

The SX-N30AE comes with Chromecast built-in, so you can use your mobile device to stream your favourite music, radio, or podcasts to your speaker. You can control the audio from anywhere in the house using Chromecast-enabled apps running on your personal device— iPhone, iPad, Android phone and tablet, Mac and Windows laptop, and Chromebook™. Discover Chromecast-enabled apps at google.com/cast/apps.

DTS Play-Fi®

DTS Play-Fi® wirelessly streams any audio content from any compatible mobile device to the SX-N30AE and DTS Play-Fi compatible audio systems, creating a multi-room system in your home. You can stream different sources to different speakers at the same time from the Pioneer Music Control App.

* DTS Play-Fi will be available with firmware update.

Intuitive Control with New Pioneer Remote App (iOS/Android)

Enjoy smooth control with album artwork using your beloved device. With the free Pioneer Remote App, you can use your iPad/iPhone/iPod touch or Android smartphone for operating the network audio player, or play back tunes stored on your device. You can also select internet radio stations, and play songs from your media server.

* Receiver needs to be connected to a home LAN network in a wireless LAN environment.

Bluetooth® Wireless Technology

With the built-in Bluetooth Wireless Technology (ver. 4.1 + LE), you can easily stream songs from compatible devices. The SX-N30AE features A2DP, AVRCP, HOGP-Host, HOGP-HID Device, and HID Service profiles, with support for SBC and AAC codec.

Dual Band Wi-Fi

Enjoy network features via wireless LAN connection. The built-in Wi-Fi is dual band, supporting both 5 GHz and 2.4 GHz frequency channels. By using the 5 GHz band, you can enjoy steady and uninterrupted audio streaming.

DAB/DAB+ Radio with Optional USB Adapter

Enjoy radio broadcasts in crystal clear sound, free of interference. The SX-N30AE is compatible with the AS-DB100 optional USB DAB adapter, which lets you listen to various programmes by automatically tuning in to available stations.
